 Fisheries Management
 STANDARD LAKE SURVEY REPORT

Lake Name: Tetonka
 DOW Number: 40-0031-00

Survey Type: Natural Reproduction Check
 Survey ID Date: 10/24/2007

Lake Identification

Alternate Lake Name: N/A
 Primary Lake Class ID: 24
 DNR Sounding Map Number: B0201
 Alternate Lake Class ID: 24

Lake Location

Primary County: Le Sueur
 Nearest Town: Waterville

Legal Descriptions

Lake Center: Township - 109N Range - 23W Section - 20
 PLS Section Lake Center: 2657

All Legal Descriptions:

Le Sueur County: Township - 109N Range - 23W Sections - 18, 19, 20, 21, 22, 27, 28, 29
 Township - 109N Range - 24W Section - 24

Area Office

Area Name: Waterville
 Region Name: Southern
 ORG Code: F417
 Region Number: 4

Lake Access

(Information based on Re-Survey dated 07/12/2004)

Station ID	Ownership	Public Use	Type	Location / Comments
------------	-----------	------------	------	---------------------

(Data excludes records where public use is not designated or is designated "No Public Use")

Lake Characteristics

Lake Area (planimetered acres): 1336.00	GIS Shoreline Length (miles): 11.64
GIS Lake Area (acres): 1357.77	Maximum Fetch (miles): 4.00
DOW Lake Area (acres): 1336.00	Fetch Orientation (degrees): N/A
Littoral Area (acres): 548.00	USGS Quad Map Number: V15a
Area in MN (acres): 1357.77	USGS Quad 24K GIS Index: 4230
Maximum Depth (feet): 35.0	
Mean Depth (feet): 19.0	

Watershed Characteristics

Major Watershed

Name: Cannon River
 Watershed Number: 39
 Watershed size (acres): 941,122

Minor Watershed

Name: Tetonka L
 Watershed Number: 104
 Watershed size (acres): 6,906

Surveys And Investigations

(1) Key to sampling gear abbreviations:

EF = Standard electrofishing

(2) Notes:

Number of Fish Aged: Fish that were aged from bony parts.

Number of Fish Keyed: Fish assigned an age with an age-length key or by expansion of mesh or station age distributions.

Number of Fish Unaged: Fish that were not aged and were not assigned an age.

Survey Crew Notes

Fall WAE EF conducted by Sean Sisler and staff

Report by Marc Bacigalupi.

Area Signed by user 'huvalian' on 04/03/2008

Discussion

This fall electrofishing survey was conducted as part of a 20-year monitoring of walleye year-classes in the Cannon River chain of lakes in which walleye fry are stocked at 1500/littoral acre 3 out of 4 years.

2007 was a non-stocked year. Therefore, the catch of 5 young-of-the-year (YOY) walleye per hour of electrofishing could be indicative of some natural reproduction or a result of hatchery escapements. In 7 non-stocked years since 1987, the average catch rate of YOY walleye in Tetonka is 13 per electrofishing hour. This number is skewed higher due to the catch of 68 /hr in 2001 when significant walleye natural reproduction occurred in the Cannon River chain of lakes. The average catch rate in 14 stocked years since 1987 is 26 with a standard error of 5.6.
